**Price per Share \$650.00**  
**All checks made payable to: STEPHENS FARM**

As a member of the Stephens Farm CSA I agree to support the farm and understand the risks (too much rain, drought, disease, crop failure, frost). Stephens Farm agrees to plant, maintain, and harvest crops with the belief that a more than bountiful harvest will be provided to each shareholder weekly. Stephens Farm will also use farming methods to produce a sufficient crop and use all available means to grow, maintain and produce a crop. The relationship between Stephens Farm and the CSA member will be based on mutual support and trust.

*I have read and understand the application and agreement. I understand that this is a Community Supported Agriculture Agreement and that, although the farmer is committed to the best of his ability to provide the highest quality organic produce, there are risks that will be shared by the CSA member. These risks may be reflected in reduced yields in certain crops. I understand that my membership entitles me to a weekly share of produce from Stephens Farm.*
